1. PERSONAL DEVELOPMENT PLAN

1.1. A municipality should be committed to:-

- (a) The continuous training and development of its employees to achieve its vision, mission and strategic objectives and empower employees; and
- (b) Managing training and development within the ambit of relevant national policies and legislation.

1.2. A municipality should follow an integrated approach to Human Resource management, that is:-

- (a) Human resource development forms an integral part of human resource planning and management.
- (b) In order for training and development strategy and plans to be successful, it should be based on sound Human Resource (HR) practices such as the (strategic) HR Plan, job descriptions, the result of regular performance appraisals and career pathing.
- (c) To ensure necessary linkage with performance management, the performance management and development system provides for the Personal Development Plan of employees to be included in their annual performance agreements. Such approach will also ensure the alignment of individual performance objectives to the municipality's strategic objectives and that training and development needs can be identified through performance management and appraisals.
- (d) Career-pathing ensures that employees are placed and developed in jobs according to aptitude and identified potential. Through training and development, they can acquire necessary competencies to prepare them for future positions. A comprehensive competency framework and profile Municipal Managers are attached and these should be linked to relevant registered unit standards to specifically assist them in compiling Personal Development Plans in consultation with their managers.
- (e) Personal Development Plans are compiled for individual employees and the data collected from all employees in the municipality form the basis for prescribed Workplace Skills Plan, which municipalities are required to compile as a basis for all trainings and education activities in the municipality in a specific financial year and report on progress made to the Local Government Sector Education and Training Authority.

1.3. The aim of the compilation of Personal Development Plans is to identify, prioritise and implement training needs.

1.4. Compiling the Personal Development Plan attached as Appendixes provides for:-

- (a) Competency assessment instruments, which are dealt with more specifically in Appendix 1 and 2, should be established to assist with the objectives assessment of employees' actual competencies against their job specific competency profiles and managerial competencies at a given period / time with the purpose of identifying training needs or skills gaps.
- (b) The competency framework and profiles and relevant competency assessment results will enable a manager, in consultation with his/her employee to compile a Personal Development Plan. The identified training needs should be entered into column 1 of Appendix 1, entitled Skills / Performance Gap. The following should be carefully determined during such processes:
 - (i) Organisational needs including the following:

BRAY
GN
FRN

- Strategic development priorities and competency requirements in line with the municipality's strategic objectives.
 - The competency requirements of individual jobs. The relevant job requirements (job competency profile) as identified in the job description should be compared to the current competency profile of the employee to determine the individual's competency gaps.
 - Specific competence gaps as identified during the probation period and performance appraisal of the employee.
- (ii) Individual training needs that are job / career related.
- (c) Next, the prioritization of the training needs should be listed since it may not be possible to address all identified training needs in specific financial year. It is however of critical importance that training needs be addressed on a phased and priority basis. This implies that all these needs should be prioritised for purposes of accommodating critical / strategic training and development needs in the HR Plan, Personal Development Plan and Workplace Skills Plan.
 - (d) Consideration must then be given to the expected outcome to be listed in column 2 of Appendix 1, so that once the intervention is completed the impact it had can be measured against relevant output indicators.
 - (e) An appropriate intervention should be identified to address training needs / skills gaps and the outcome to be achieved but with due regard to cost effectiveness. These should be listed in column 3 of Appendix 1 titled: Suggested Training / Development Activity Undertaken. It is important to determine through the training / Human Resource Development / Skills Development Unit within the municipality whether unit standards have been developed and registered with the South African Qualifications Authority that are in line with the skills gaps and expected outcomes identified. Unit standards usually have measurable assessment criteria to determine achieved competency.
 - (f) Guidelines regarding the number of training days per employee and the nomination of employees should on average receive at least five days of training per financial year and not unnecessarily be withdrawn from training intervention.
 - (g) Column 4 of Appendix 1, the suggested mode of delivery refers to the chosen methodology that is deemed most relevant to ensure transfer of skills. The training / development activity should impact on delivery back in the workplace. Mode of delivery consists of amongst others, self-study [The official takes upon him / her to read e.g. legislation; internal or external training provision; coaching and / or mentoring and exchange programmes, etc.
 - (h) The suggested timeframes (column 5 of Appendix1) enable managers to effectively plan for the year e.g. so that not all their employees are away from work within the same period and also ensuring that the PDP is implemented systematically.
 - (i) Work opportunities created to practice skills / development areas in column 6 of Appendix 1, further ensures internalization of information gained as well as return on investment (not just nice to have skill but a necessary to have skill that is used in the workplace).
 - (j) The final column, column 7 of Appendix 1, provides the employee with a support person that could act as a coach or mentor with regard to the area of learning.
