- a. Above R300 000, a Bid Evaluation Committee must evaluate bids received and submit a recommendation regarding the award of the bids to the Bid Adjudication Committee.
- b. Bids must be evaluated against the predetermined criteria in the bid document. The criteria to be taken into account are inter alia:
 - i. Compliance with the specification/TOR and conditions of the bid.
 - ii. Preferential procurement:
 - Price
 - Functionality
 - Municipal Specific Goals (equity as well as socio economic)
 - iii. Capability/ability of the bidder to execute the contract.
 - iv. Check in respect of the recommended bidder whether its municipal rates and taxes and municipal service charges are not in arrears.
 - v. Declaration for procurement above R10m (VAT included).

19.11 Format of the Recommendation Report

- a. The SCM Unit is responsible for the compilation of the recommendation report and therefore the SCM Unit must provide the professional secretariat function for each evaluation. Recommendation/submissions to the Bid Adjudication Committee or other award structures must be clear regarding the content and purpose of the matter for which consideration and approval is desired. The practice of submitting memoranda, reports, contracts, agreements, invoices and the like and requesting general approval is not acceptable. However, such documents may be forwarded as annexure supporting the request. Facts must be set out fully and clearly in the submission and reference must be made only to those portions of the attached documents that are directly related to the approval being

requested.

19.12 Consideration of Additional Information

- a. Information received after the closing date may only be taken into consideration if it would not influence the original recommendation made, which must be based on the original information received from providers.
- b. During the consideration of quotations/bids, communication by Msukaligwa Local Municipality with providers may only take place with the express prior approval of the relevant award structure.

19.13 Cancellation of Quotations/Bid

- a. Should it be determined through the evaluation process that no acceptable quotations/bids were received; a recommendation to cancel the quotation/bid must be submitted for approval as part of the evaluation report.
- b. The reasons why no acceptable quotations/bids were received by the closing date and time must be investigated before a decision is made what alternative process must be followed to satisfy the requirements.
- c. The requirement may now be re-advertised / re-invited or a specific number of pre-identified service providers may be targeted.
- d. The evaluation report must contain the request for cancellation accompanied by the perceived reasons determined through the investigation as well as a recommendation on the alternative process to be followed to satisfy the requirements.
- e. The relevant award structure must approve all cases where quotations/bids:
 - i. Must be cancelled.
 - ii. New quotations/bids must be solicited because of the cancellation.
 - iii. Negotiations with the preferred bidder must take place to determine a reduction in the scope and/or a reallocation of risk and responsibility. A substantial reduction in the scope or modification to the bidding documents may require re-bidding.
- f. Where quotations/bids must be cancelled all bidders must be informed in writing of the cancellation or the cancellation must be advertised in the same media as originally advertised.

[Preferential Procurement Framework Regulations, Section 8(4)]

19.14 Negotiations

- a. The Accounting Officer may negotiate the final terms of a contract with bidders identified through a competitive bidding process as preferred bidders, provided that such negotiation:
 - i. Does not allow any preferred bidder a second or unfair opportunity.
 - ii. Is not to the detriment of any other bidder.
 - iii. Does not lead to a higher price than the bid as submitted.
- b. Minutes of such negotiations must be kept for record purposes.

[Municipal Supply Chain regulations, Section 43(1)]

19.15 Confirmation of Prices

- a. A legal contract cannot be concluded by the acceptance of an offer where it is obvious to any reasonable person that a price is out of line with other market prices and/or previous quoted prices. Confirmation of whether the price is correct or not, must be obtained from the provider in such cases.
- b. Only confirmation of the correctness of the price is involved and not negotiation for a better price.

19.16 Verifying Preferences

- a. Verification is required whenever it is clear that the claimed preference is incorrect or when reasonable doubt exists that the bidder is entitled to the preference in any way at all.

19.17 Amendment of Prices Prior To Lapse of Validity

- a. An amendment of a quoted price during the original validity period is not allowed.

19.18 Extension of Validity Period

- a. Extension of validity must be finalised while the quotations/bids are still valid.
- b. If a bidder should reduce the quoted price as a result hereof, the reduction may be considered only if the provider would have been the successful contractor irrespective of the reduction. In other words the case is evaluated at the original quoted price and if successful, it is accepted at the reduced price.
- c. In cases where the quoted price is increased when the validity period expires and the quotation/bid concerned is either no longer recommended for acceptance or is recommended for acceptance at the higher price, the disadvantageous or incremental costs must be reported to the Council.

19.19 New and Unproven Products

- a. A bid may not be rejected simply because the bidder or the product offered is unknown.

19.20 Country of Origin

- a. There is currently no embargo on the purchase of products from any foreign market.

19.21 Deviations From Specifications

- a. Quotations/bids with acceptable deviations from specification may be recommended for

acceptance, provided that the competitiveness of another provider is not adversely affected.

19.22 Alternative Offers

- a. Regardless of whether the provider also submits offers conforming strictly to specification, alternative offers may be considered and accepted provided that the other providers are not prejudiced. If the alternative offer does not meet the specification requirements, in that it is lower than the specified requirements and the deviations are acceptable, the other providers must be approached in cases where they might possibly be prejudiced, with a view to obtaining offers for the delivery of a product or service with the same or similar acceptable deviations. Such cases must be submitted to the relevant Bid Evaluation Committee for consideration and the relevant award structure for approval.

19.23 Improvement of Specification

- a. A quotation/bid received which offers an improvement on the specification may be accepted provided that the other providers are not prejudiced.

19.24 Equal Offers

- b. Should two or more offers still be equal in all respects, the award must be decided by the drawing of lots in accordance with the delegated powers.
- c. Where bid prices for a portion of a series of sub-items are equal and it is necessary for these items to be obtained from the same bidder, then the lowest overall bid may be recommended for acceptance.

19.25 Additional Quantities

- a. Before an award is made, additional quantities may be accepted up to the maximum percentage provided for in the delegated powers.
- b. All providers concerned must be approached for offers for larger quantities.
- c. Where the additional quantities are more than the percentage provided for in the delegated powers, a fresh or a supplementary bid must be invited.

19.26 Samples

- a. Notwithstanding the requirement that samples must be submitted not later than the date and time specified in the bidding documents, samples may be received up to the time that it is required for evaluation. The recommendation of a bid must, however, not be delayed because a sample, received late, still has to be evaluated.

19.27 Comparison of Quoted Prices

- a. The quoted prices of all items must be brought to a comparative basis, where applicable, by deducting preferences and other benefits, and adding implied contract price adjustments in the case of non-firm prices and delivery and other costs where applicable.
- b. Where purchases are accompanied by a maintenance contract and the future costs of the maintenance are known, the discounted present value of all the future costs must be added to the purchase cost in order to calculate a comparative price. Where these costs are not known, a typical scenario must be set in the quotation/bid document and priced by each provider in order to obtain comparative prices.
- c. The quoted prices of providers who are not registered in terms of the VAT Act, must for purposes of comparison be accepted as being inclusive of VAT. Msukaligwa Local Municipality must do price comparisons on these quoted prices and any transaction as a result of acceptance of such quoted prices will under no circumstances be subject to the levying of an additional tax.

19.28 Comparative Prices: Bids for Contracts with a Duration of More Than Three Years

- a. Where bids for contracts with duration of more than three years are received, comparative prices, where necessary, must be calculated on the basis of the discounted net present values of the various offers.
- b. A specific escalation rate determined by the market factors should form part of the bid. This rate will then be used to calculate the tariffs for each of the future years.

19.29 Confidentiality

- a. After public opening of bids, information relating to the evaluation process may not be disclosed to interested parties or other persons not officially concerned with the process, until the successful bidder is notified of the award.
